

STI Computer Services introduces **TONER ON DEMAND** service

Never worry about ordering toner for your printers again. Toner when you need it automatically, at most competitive pricing!

Toner on Demand Benefits:

- Low price for genuine OEM Toners
- Eliminate need for a 'toner closet'
- Pricing for toner guaranteed not to increase for the life of the agreement
- Hands-off, automatic supplies fulfillment; toner is delivered just in time, every time.
- Single invoice each month for toner that has shipped
- No enrollment fees, shipping fees, or minimum requirements. Pay only for the toner you receive.

How does it work?:

- STI installs a collection agent on your network that receives alerts from any network printers.
- When a low toner alert is received- a replacement toner for that printer is automatically shipped to your office.
- Toner is labeled with identification info so you know exactly which machine the toner is for when it arrives
- We send you one invoice per month for any toner shipped. Its that simple!
